Teachers will create an assignment from their designated class. It will show the title of the assignment and any instructions added to it.

Once the teacher has assigned the assignment, it will show up in the “Stream Tab”, on the students landing page.

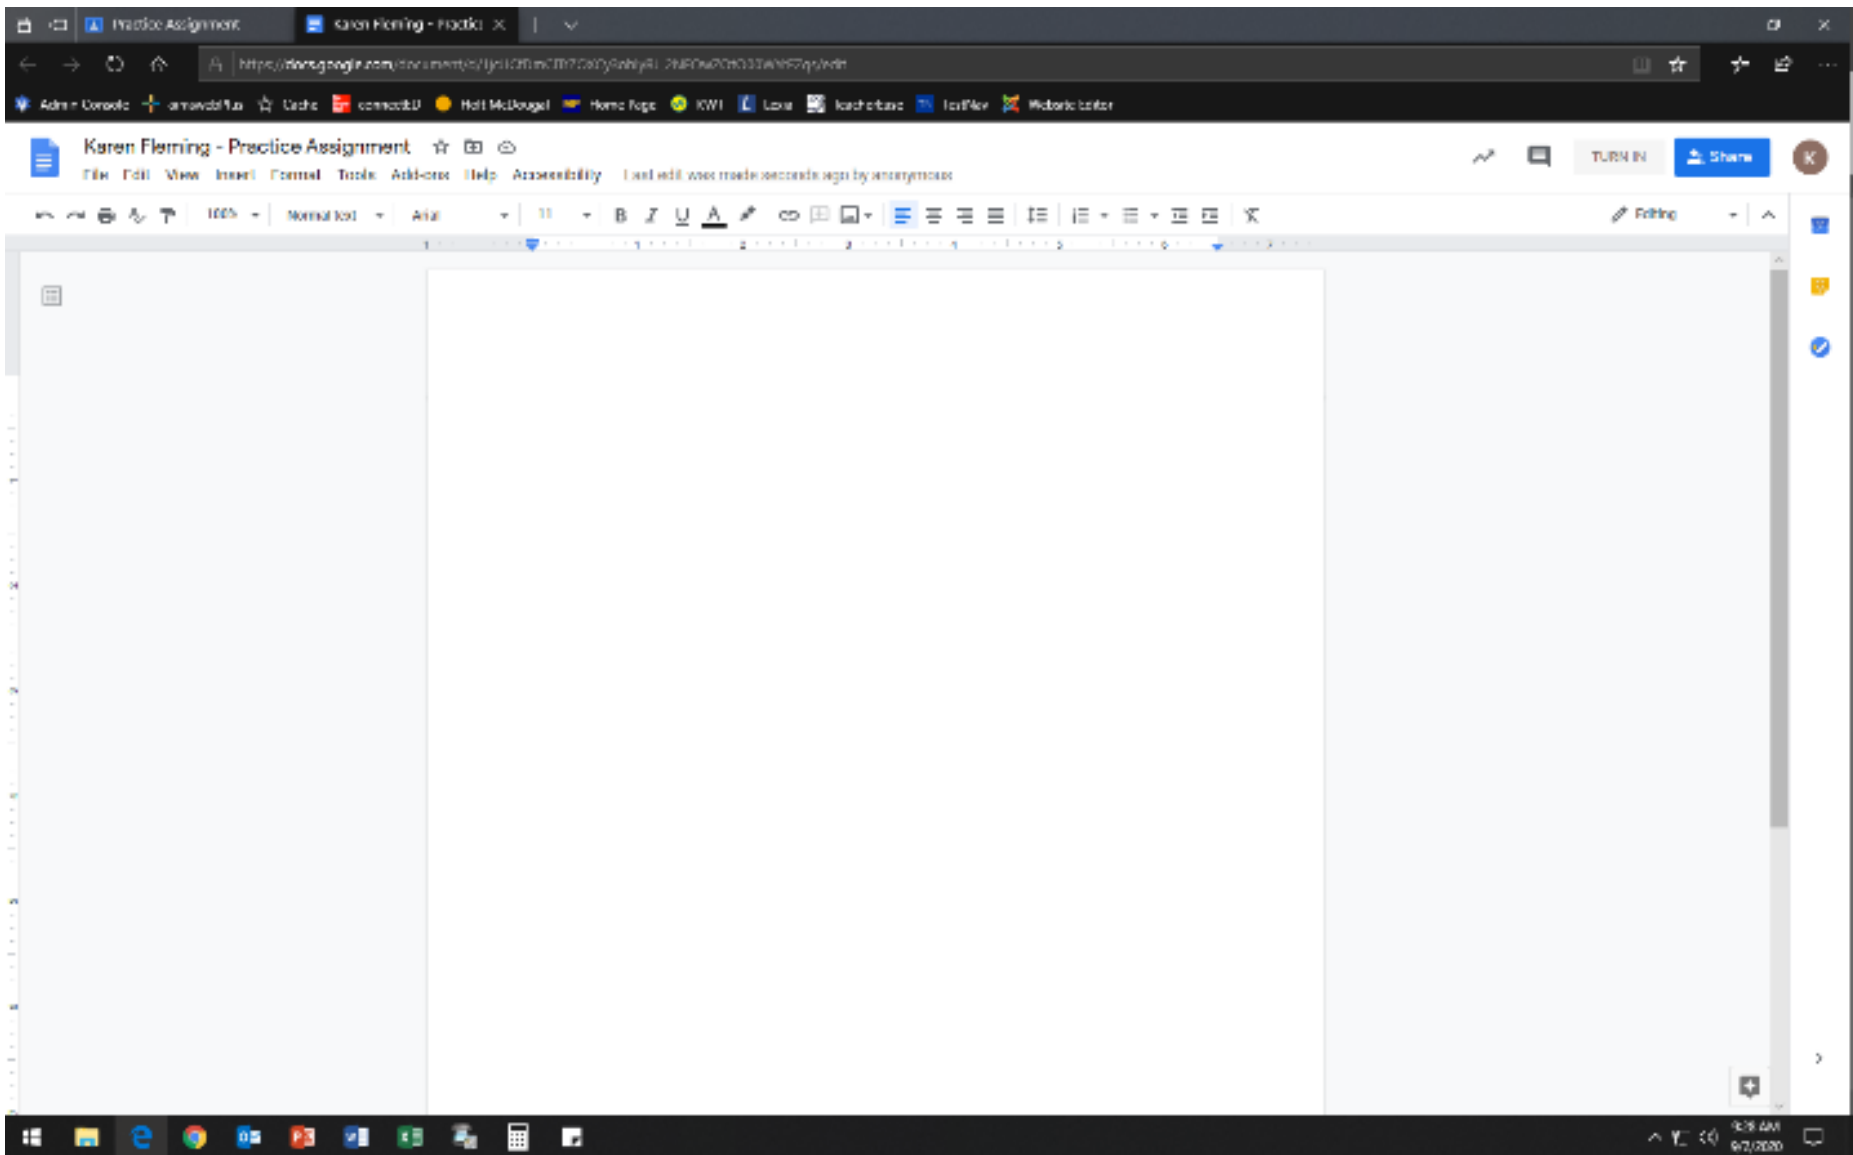

Students will click on the "Classwork Tab" to see the most recently assigned assignment. Clicking on view assignment will open it.

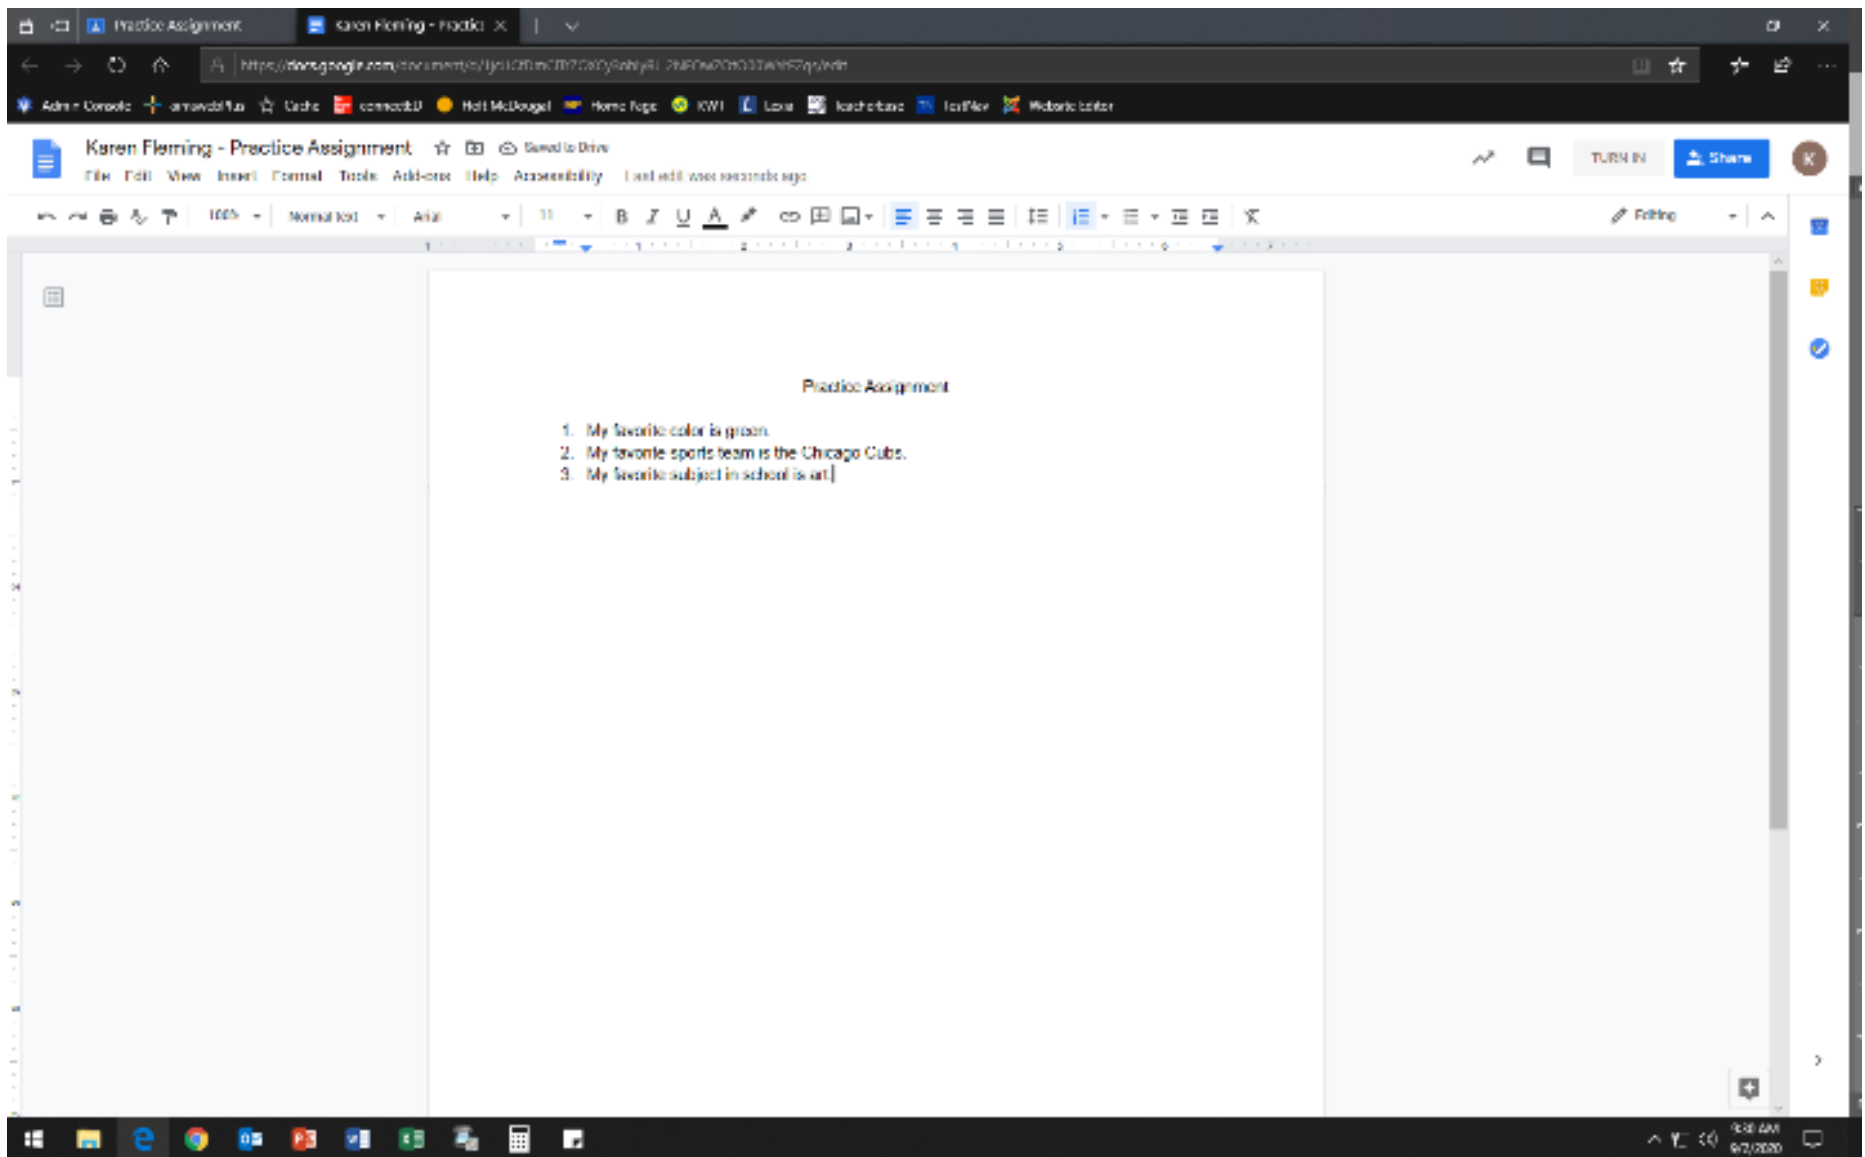

In the right hand corner is the “Your Work” section, students will be able to click on “Add or Create” to open a dropdown menu.

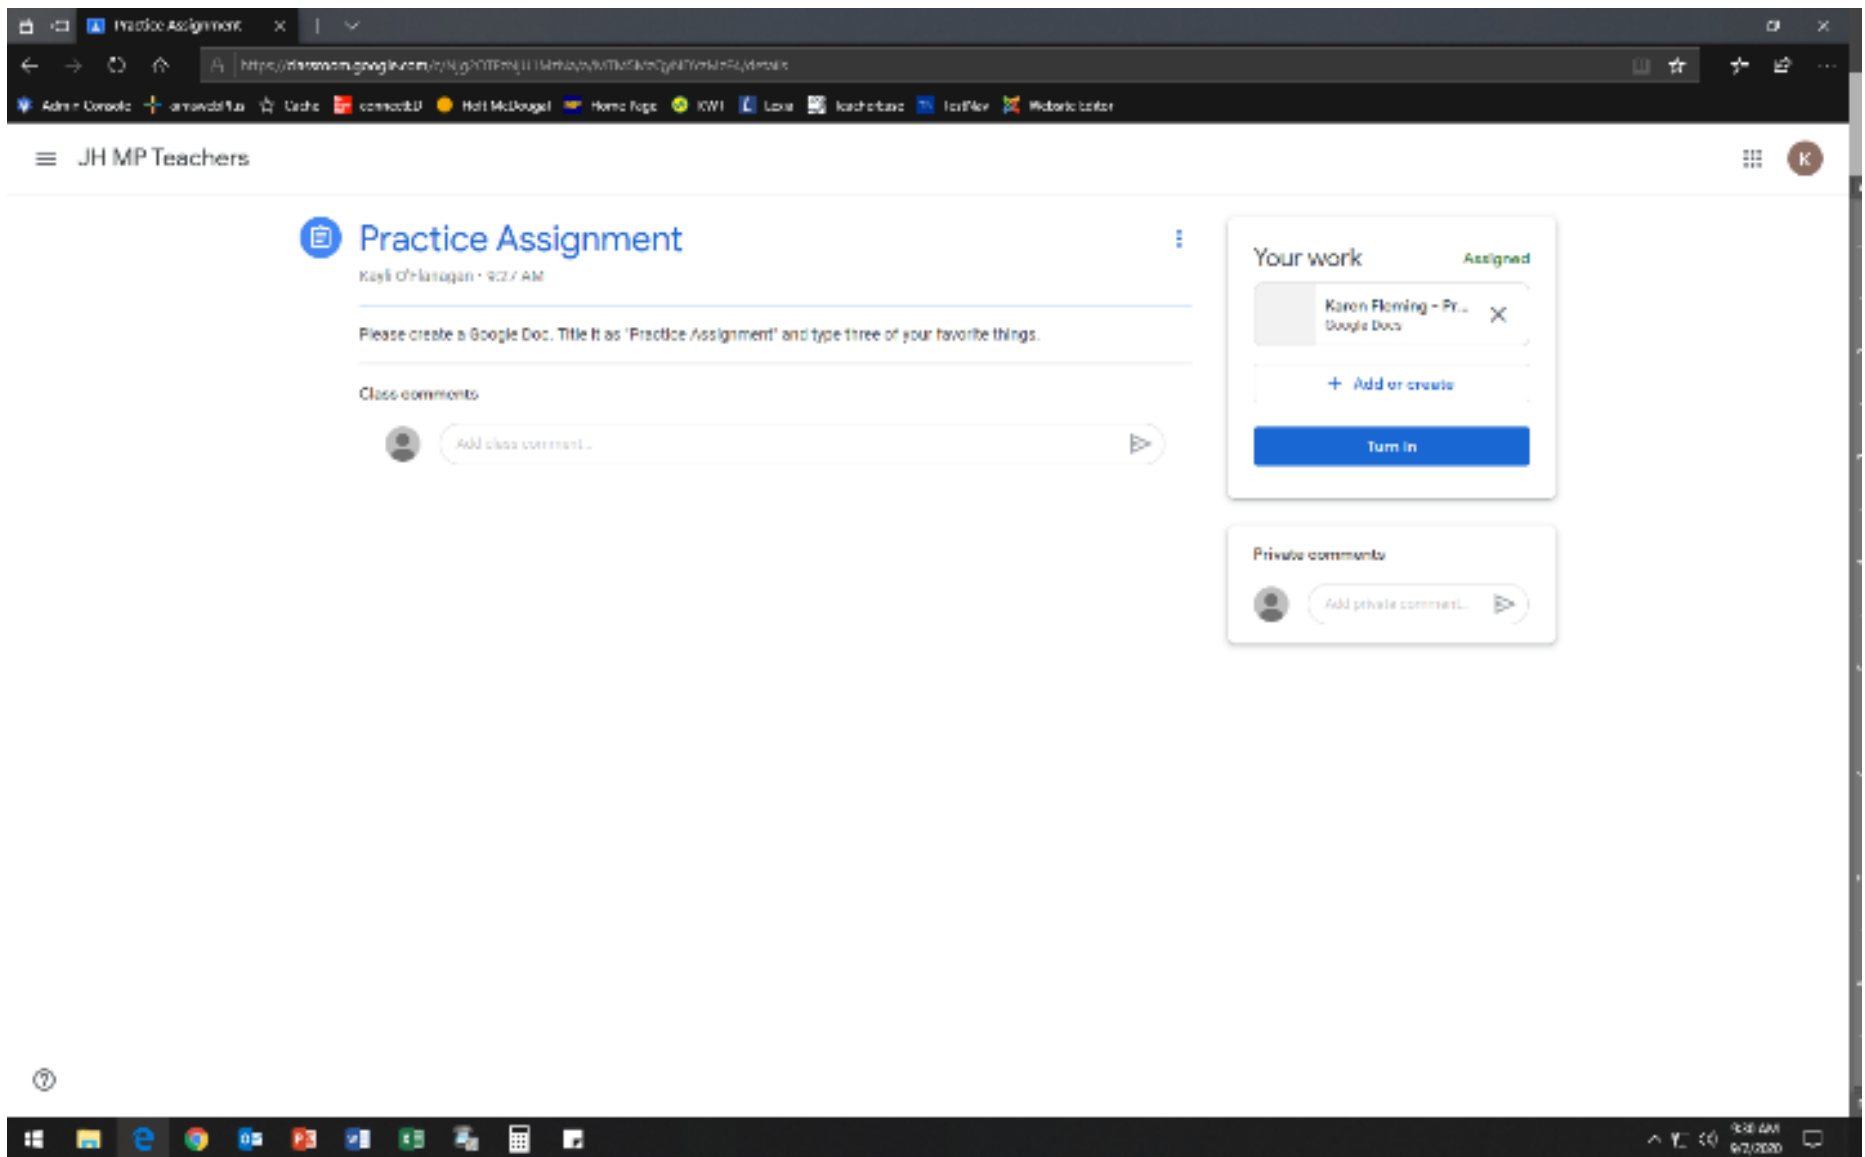

Choosing a Google Doc will populate a new tab, with their Doc named as the assignment.

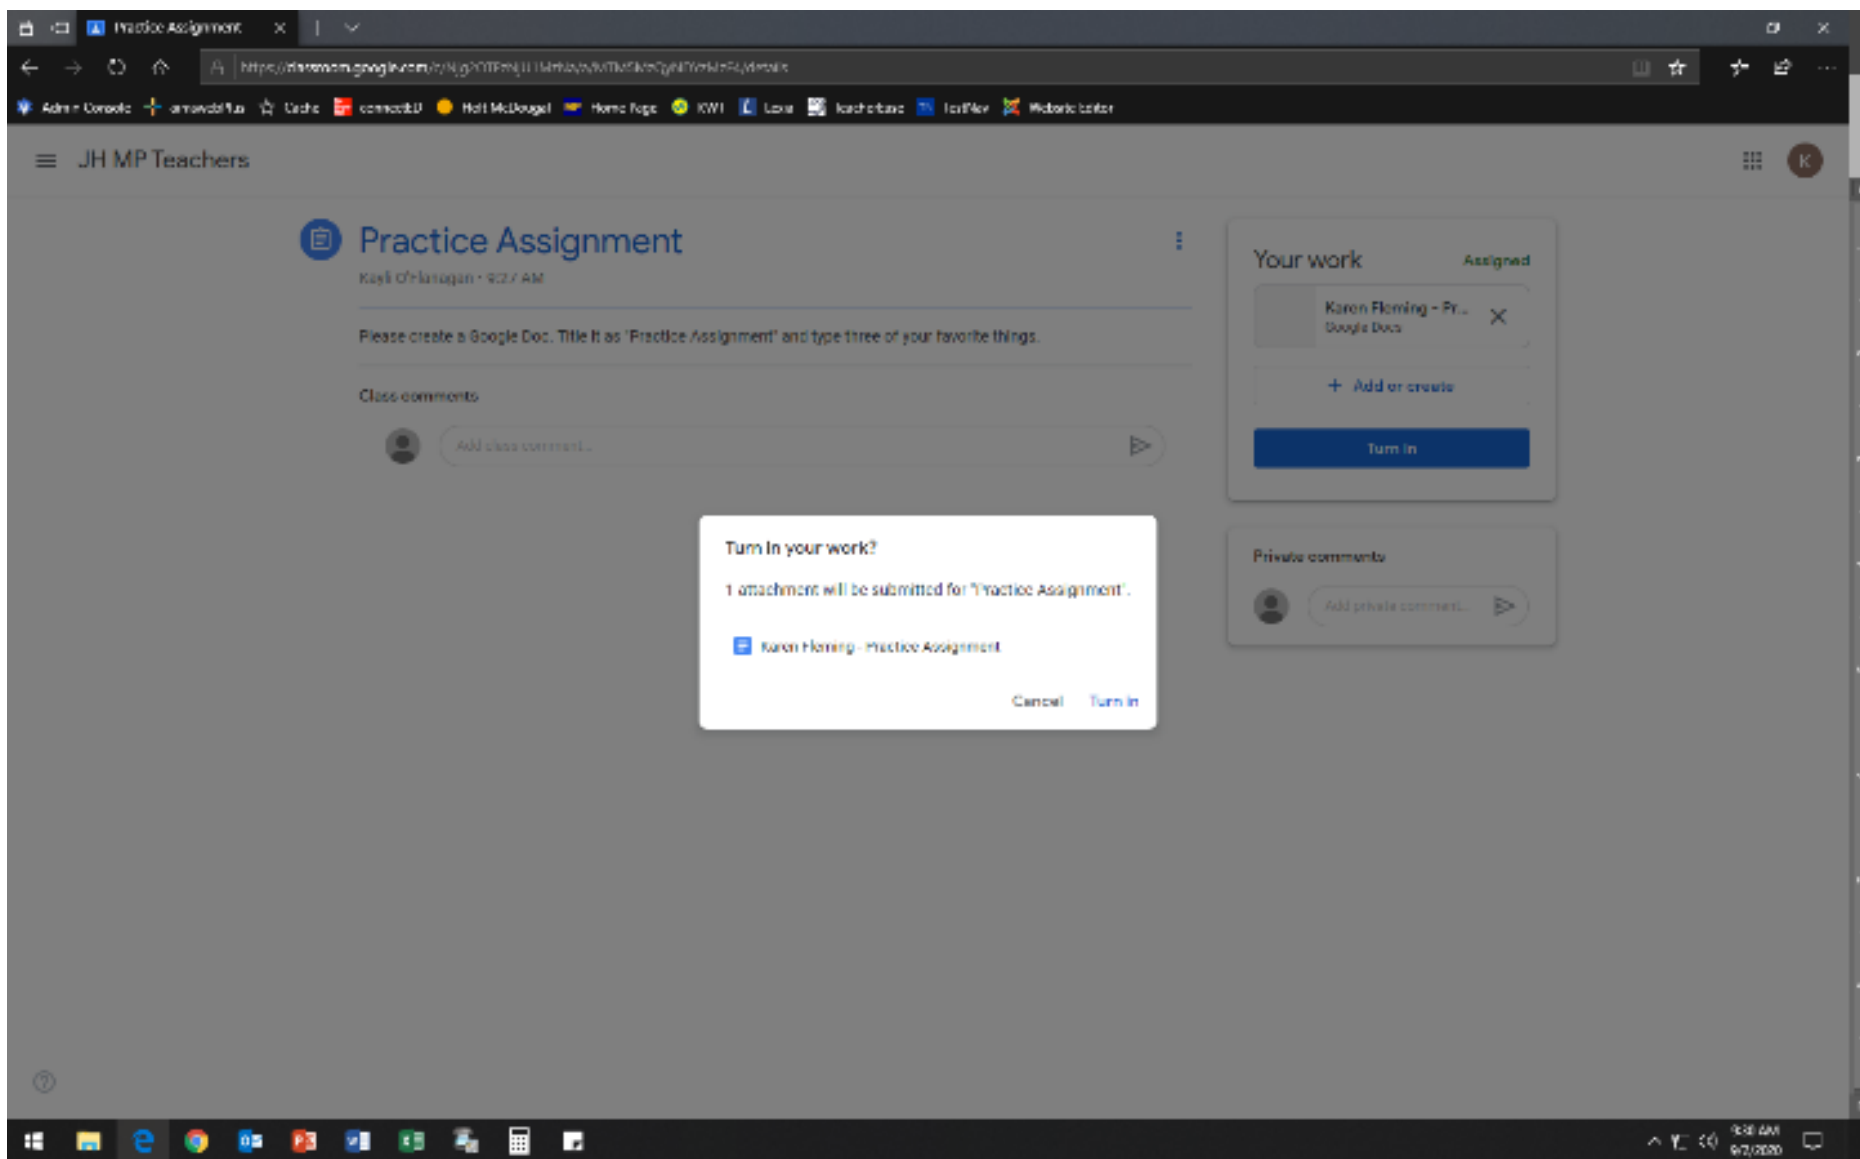

Once the student has completed their work for the assignment, they can close out their Docs tab.
